viktor pic
hannah pic
emilia no pic
aisha no pic
david no pic
lea pic
tian pic
leila pic
kare no pic
hans no pic
maria no pic

Remarks:
Calibration was not entirely accurate the way we would have wanted it to be. after 5-6 tries we proceeded anyway

Resumes missed:
lea
Emilia

Remarks:
Lea and emilia resumes were missed during the first run
Both are listed in the tsv file, so data has been recorded but resumes werent displayed. need to take them out from the tsv file.
2 tsv files: 1 for first run, 1 for the missing resumes

Salman Naveed

Subject tsv file: subject 7
Cv file: 7_participant_csv

Conditions: glasses, curtains closed. All lights off
Calibration was alright, not super great. Had to move on coz it had already taken too long

Resumes shown:
Viktor pic
David pic
Emilia pic

Looked at JD. recalibration required. Recalibration was reallllyyyy off.
Eyetracker restarted. Experiment restarted with the remaining 9 resumes.

Moved past resumes really quickly

Fei Wu, participant 11
Wearing glasses

Participant 12
Reading the resume ->
Emilia - looked down in between

Viktor elizarov - slovewely analysed, pressed the key after looking down

Aisha - quick

Hannah - anlysed the button, slowvwely reading, focused on the top

Rahul - slowevely reads line by line,

David - slowevy reads, looked down, analysed everything in the botten, went back to the top focused on the top

Kare - analysing the middle and the botten, quickly went tot the key

Hans - middle, fast in the button, up and key

Lea - slowvely ito the button, looked from different directions quickly

mari aa - quick from the middle

Tian - middle, focused on the top

Leila - very quickly
